Reason for product recall

Article

Product recall

Sunscreen recall - incorrect sun protection factor

By: Sandra Neuer Published on: 12/05/2025

Sunscreen by SunShield
1008544590

We are recalling several batches of our SunShield sun cream and sun sprays as it has been discovered that the sun protection factor (SPF) stated on the packaging is incorrect. This can lead to insufficient protection against UV radiation and an increased risk of skin damage and skin cancer.

To do

Please remove the goods from sale

High priority

Today

Mark as done

- Ensure that all affected products with a best-before date of 20/08/2025 are withdrawn from sale.
- Offer the customer a refund of the purchase price or a replacement if this is part of the recall policy.
